Amanda Baran<sup>1</sup>

**Abstract**—Lab 6 report for CSE 460 Mobile Robotic with Professor David Saldaña.

## I. TRACKING A BALL

The python scripts I created to make the robot perform the desired tasks can be found here: <https://github.com/amandabaran/robotics/tree/main/lab6>.

The video recording of the robot tracking the ball using the part2.py script can be found here: [https://drive.google.com/file/d/1pMG7GQ9MWON-HTju26AoZKw4hmGObtEj/view?usp=share\\_link](https://drive.google.com/file/d/1pMG7GQ9MWON-HTju26AoZKw4hmGObtEj/view?usp=share_link).
